Introduction :

Bangladesh graduating from LDC is now a developing country. Youth are the main driving force in development process. They are social actors of change and progress. Their participation in development process should be encouraged in all possible ways. Their contribution, therefore, is highly needed in the journey of development.

The motivation, determination and high energy of the youth can make all the difference in building a nation. Proper guidance and direction can bring the youth in the forefront of national development. The youths have passions, dreams and hopes. They have bubbling enthusiasm which has to be regulated and utilized in the right way. This can surely ensure rapid development of nation.

To make youths responsible, self-confident, self-reliant and to transform them into disciplined productive workforce the Government of Bangladesh created Ministry of Youth Development in 1978 which subsequently renamed as Ministry of Youth & Sports. Department of Youth Development (DYD) was created on 1981 to perform field level youth activities.

As per National Youth Policy, those in the age group of 18-35 years are considered to be youth. According to the Population Census and Household Survey 2011, total youth population in Bangladesh is 4 crore 80 lakh 24 thousand 704 and they constitute about one-third of the country's total population. Keeping this in view, the Department of Youth Development since its inception has been trying relentlessly to transform the promising, productive and job seeking youth force into disciplined, organized and skilled workforce so that they can engage themselves in mainstream

development activities of the nation. It is indeed mentionable that transforming Bangladesh into a digitalized country by 2021, achieving SDGs set by UN and even transforming Bangladesh into a developed prosperous country by 2041, we have no option but to utilize the bulging youth population of the country as main workforce.

Since the inception (1981) of the Department of Youth Development (DYD) until June 2022, it has imparted training to 67,65,049 youths on different trades, with a view to creating employment and self-employment, and out of them 23,32,441 trained youths have engaged themselves in self-employment projects. Amongst these, in the fiscal year (2021-22) 3,00,174 youths have been trained and 48,104 are self-employed. For establishment and extension of self-employment projects since the inception of the microcredit programme of the department till June 2022 an amount of Tk. 225593.00 lakh was disbursed to 10,23,931 trained youths as loan from principal capital and revolving fund. Moreover, an amount of Tk. 15098.66 lakh was disbursed to 43,793 trained youths as loan during the fiscal year 2021-2022. The average rate of loan realization is 95.21%. The monthly income of self-employed youth ranges from Tk. 10,000/- to Tk. 1,00,000/-. But in some cases successful self-employed youth earn more than one lakh taka per month. Moreover, a good number of trained youths have obtained jobs in different organizations at home and abroad by the time. In fact, DYD is proceeding ahead in creating self-employment and employment opportunity across the country.

Areas of Work

The Department performs the following activities as per the “Rules of Business” of the Government :

- All matters related to the youth - their welfare, training and prospects.
- Organization and mobilization of the youths for voluntary participation in the development activities of the country.
- Co-ordination of youth services, liaison with concerned Ministries/ Divisions.

- Youth Awards.
- Programmes to encourage sense of adventure, responsibility, confidence and achievement in youths.
- Research and study on youths and youth development activities.
- Promoting activities for creating employment opportunities for the unemployed and underemployed youths.

Vision

- To build modern life oriented youth with high ethics and values enabling to increase glory & development of Bangladesh.

Mission

- To establish youth in every sphere of life by developing their talents and ensuring empowerment.

Objectives

- To transform the youth as judicious, modern life oriented, self-dignified and positive person.
- To create favorable environment for manifestation of the potentialities of the youth.
- To transform youth as human resources.
- To ensure quality education, health and secure healthy environment for the youth.
- To arrange professions and jobs for youth according to their capability.
- To encourage economic and creative endeavours of the youth.
- To make youth capable to play pivotal role in all spheres of national life through their empowerment.
- To involve youth in local, national and international decision making process.
- To encourage youth to be volunteers for protection of environment, climate change and confront natural disaster as well as to engage them in nation building activities.
- To sensitize the youth towards the social needs of the physically and mentally or otherwise challenged and backward people of the society.
- To ensure the rights of the youth of special needs.
- To motivate the youth to avoid the aggressive mentality and extremism in lifestyle.
- To awake the liberal, non-communal, humane and global spirit among the youth.

Organizational set-up :

Department of Youth Development (DYD) is headed by Director General who is assisted by Six Directors and Project Directors of different projects together with the employees. 03. Poverty Reduction and Micro-credit Programme

Youths live in poverty due to constraint of property. They cannot meet their fundamental needs such as food, cloth, nutrition, health and education because of unemployment and lack of property of their own. The main objective of the poverty reduction programme is to ensure a poverty free happy life for them through providing skill development training and micro credit support with easy terms and conditions. This is an ongoing programme in all upazilas of the country.

03. a) Family Based Credit Programme

This programme benefits the rural landless and poor people, especially the poor youths. The main objective of this programme is to help the families develop into units of economic activities. It is being operated in 310 upazilas of the country. This family-oriented approach attaches importance to family cohesion, traditional family occupation, women empowerment, health care, education, environment development and group dynamics. The members of each group are to be blood-related or close neighbors. A group consists of five members and the members are given loan for undertaking income generating activities. 7-10 groups make what we call a centre. The employees of DYD make themselves available at this centre to disburse and recover loan, thus removing the need of the members travelling to DYD offices. The lowest ceiling of group-based micro-credit is Tk. 12,000 per group member and the highest ceiling is Tk. 20,000. A group is entitled to loan for 3 times. In addition to it, provision of "enterprise loan" has been made for successful recovery of loan to 5 members in a centre following the credit manual of self-employment loan. Loan is realized with 5% service charge at a declining rate. Before disbursement of loan, the members are given 5 days orientation on loan management and loan recovery. The average rate of recovery is 96.70%.

Conclusion

Youths are most energetic, self-confident, creative and productive guiding force of the nation. They have dreams, passions and hopes. They are impatient and dynamic. Their bubbling enthusiasm has to be regulated and utilized by providing an enabling environment. Youth are willing and able to take responsibility for their lives and contribute positively to change society in which they live. Proper guidance and direction can bring them in the forefront of national development so that their potentialities are properly harnessed and they are transformed into valuable human resource. We have no choice but to harness the youth to achieve the UN declared SDGs by 2030 and build a prosperous Bangladesh by 2041. We have no option but to utilize the bulging youth population of the country. The relentless efforts of the Department of Youth Development under the supervision of the Ministry of Youth and Sports are continuing towards the desired goal. We believe, the strength of youth is the prosperity of Bangladesh.
